RE: Hancock Central School District
December 5, 2014.

Residents of the Hancock Central School District Vote Overwhelmingly to Approve Capital Project to Renovate Facilities

Hancock, NY, December 5, 2014– On December 4, 2014 voters in the Hancock Central School District overwhelmingly passed a $6.5 million capital improvement project that was developed to address infrastructure, safety and maintenance concerns at the Hancock Elementary and Middle/High School. District officials announced today that voters supported the project that carried no additional tax impact to residents, by a margin of 105 yes votes to 46 no votes.

The Hancock Central School District Capital Project is part of the District's long term commitment to developing a solution to infrastructure issues and meeting the information needs of the 21st Century, particularly in science, math, and technology.

"Our community's continued support of this school District is so important and deeply appreciated, not only by myself and our staff, but by the students who will benefit from this project now and in the future", said Terry Dougherty, Superintendent of Schools. *"Over the past thirteen years, this is the third capital project local residents have supported totaling nearly sixteen million dollars in construction renovations and enhancements"*, Dougherty added, "*we are sincerely humbled and grateful for the trust we have earned."*

Renovations are expected to begin in the late spring or summer of 2016.

Please contact Superintendent Terrance P. Dougherty, 607 637-1300, with questions.
