

Thanks for another great summer!

The Hancock Central School District worked in conjunction with The Hancock Community Education Foundation to host another successful Summer Enrichment Program at Hancock Elementary School in 2018.

Students in grades K-9 from the HCSD and surrounding areas spent their weekday mornings on campus participating in a variety of activities designed to educate and entertain. The program also featured Field Trip Fridays, giving the kids a chance to learn, play and socialize while exploring area attractions.

The program closed Aug. 2 with its annual Fun Day, where students, teachers and volunteers got together for contests such as whipped-cream eating, doughnut-bobbing, water-balloon races and a pasta-skills challenge, among others. The group then enjoyed lunch on the front lawn of the Elementary School under sunshine-filled skies before saying good-bye until opening day of school on Sept. 6.

For more information on the Summer Enrichment Program, call Tina Appley weekdays at 607-637-1388.
